

# High Performance Asphalt Saturated Felt

## #30 Saturated Felt General Information

#30 Saturated Felt - ASTM D-4869, Type III

Atlas provides a complete selection of roofing felts. These felts are asphalt saturated and are manufactured with a high-grade organic mat. #30 Saturated Felt is specified for use as an underlayment between the roof deck and the shingles.

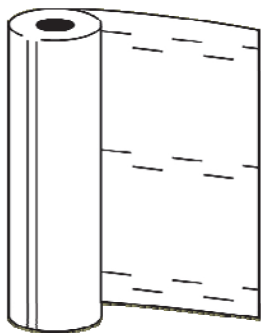

### Features & Benefits

- Heavy Organic Mat
  - High Asphalt Saturation
  - Heavier Roll Weight
  - Tightly Wound Rolls - Less Telescoping
  - Consistent Roll Lengths
  - Excellent Standard Packaging
  - Highly Visible Alignment Lines
  - High Tear Strength
  - Easier Roll-Out - Less Sticking
- Flatter Installation Lay-Down With Less Curling

## #15 Specification Felt General Information

#15 Specification Felt - ASTM D-4869, Type II, ASTM D-226, Type I

Atlas provides a complete selection of roofing felts. These felts are asphalt saturated and are manufactured with a high-grade organic mat. #15 Specification Felt is a specification grade felt for use as an underlayment between the roof deck and the shingles.

### Features & Benefits

- Heavy Organic Mat
  - High Asphalt Saturation
  - Heavier Roll Weight
  - Tightly Wound Rolls - Less Telescoping
  - Consistent Roll Lengths
  - Excellent Standard Packaging
